DRIVEN THE WORLD OVER

ALL STEEL RADIAL TBR&OTR

INTRODUCTION.

Devoted to becoming one of the most professional suppliers of tyre products and services

In the 1920s - The Shanghai Great China Rubber Factory and Shanghai Zhengtai Rubber Factory, the earliest tire manufacturers in China, established the "Shanghai Tire & Rubber (Group) Company ", and the name was changed in 2017 to "Double Coin Tire Group Ltd ". The company's entrepreneurs established China's rubber industry national brands "Double Coin" and "Warrior" in 1929 and 1935 respectively. They combined imported technology with independent innovation, developed and manufactured many firsts in China's tire industry, cultivated and Promoted the development of China's tire industry.

The company's main products are all-steel radial truck tires, all-steel radial light truck tires, all-steel radial off-the-road tires, all-steel radial industrial tires, agricultural radial tires, radial passenger tires, bias truck tires, Bias light truck tires, bias industrial tires, etc. The company enjoys self-support import and export rights, and its products are sold to more than 100 countries and regions abroad. The domestic market covers all provinces, cities and autonomous regions. It also supplies products for more than 30 automobile manufacturers such as CIMC, Zhengzhou Yutong, Xiamen Jinlong, and Volvo, and entered the European and American original tire market, matched with trucks, school buses, and construction machinery vehicles of famous auto manufacturers such as SCHMITZ CARGO, Caterpillar, Autocar, UTILITY TRAILER, and entered the European and American mainstream markets represented by famous logistics companies such as JBHUNT.

Devoted to becoming one of the most professional suppliers of the products and services.

LONG HAUL.

DC211

Long Haul / Regional | All Position

- High wear-resistance and low heat generation two-layer formulation for tread, new steel cord fabric.
- Unique TECO design theory, advanced production technology and automatic equipment.
  Reinforced belt layer and tyre bead design.
- Optimized crown material layout and crown profile design,with new side wall layout.
- New designed 180 ° symmetrical pattern.
- Multidimensional evaluation on contact patch and force.
- High standard detection for ovality、dynamic balance and uniformity.

TIRE SIZE	PR	LOAD INDEX	SPEED SYMBOL	OVERALL DIAMETER (mm)	SECTION WIDTH (mm)	TREAD DEPTH (mm)	TREAD ARC WIDTH (mm)	RIM

DC238

Long Haul / Regional | Steer Axle/Trailer Axle

- Unique safety technology from DoubleCoin.
- Reinforced crown provides puncture-resistant performance and handling stability.
- New angle design reduces stone pinching, avoids crown destruction.
- High wear-resistance and low heat generation formulation in crown increase high-speed durability and reduces crown failure rate.
- Brand-new belt layer with finite element optimized crown profile design reduces uneven abrasion and provides longer mileage.
- Block pattern with three-dimensional steel sheets design provides traction in dry or wet conditions.

- EPA SmartWay-verified technology.
- Advanced tread compounds and internal construction provide low rolling resistance and long service life.
- Durable casings provide multiple retreads possibility.
- Radial design optimizes both fuel efficiency and safety.
- Extensive tread siping help fight irregular wear in free rolling positions.
- Tread compounds include additional ozone protection that lasts up to 12 years.

WINTER.

RSD1

Winter | All Position

- With a special type of resin for enhancing torn-resistance of tread.
- With double-layer tread, of tyre, layer for abrasion-resistance of tyre. The double layer tread ensures abrasion-resistance and extends the tyre life at late stage.
- Horizontal wave shape grooves for maintaining grip and safe driving on the ice road.
- Reinforced belts designed to increase handling stability and driving safety of tyre.
- Premium structure could evenly scatter the pressure for road contact of tyre, effectively avoid irregular abrasion and damage.
- Deepen tread depth designed for more mileage.
